OUR ENVIRONMENTAL COMMITMENT

Funsport Rhosneigr is committed to minimising its environmental footprint to protect our planet for ourselves and for future generations. We are passionate about protecting the unique natural beauty on our doorstep and are committed to do our bit to preserve the oceans and beaches that are our playground.

Rhosneigr is a special place, its unique natural beauty combined with its ideal positioning for wind and waves make it a location that lives long in the heart of anyone that lives in or visits the area. At Funsport we appreciate how fortunate we are to live and work in such a diverse and stunning part of the world, and that is why we want to do our bit in protecting the planet any way we can.

We all feel the pull of Anglesey's coastline. Whether it's the compulsion of dropping all other commitments and chasing that promising but iffy Windguru forecast, or the promise of a sun-soaked weekend in August, our beaches and bays draw us in again and again. They are our playground, but without action they are sadly increasingly at risk. This policy marks our pledge to make a difference and protect not only our local area but the environment at large. The way we see it, Planet Earth is everyone's playground and if we don't protect it life won't be much fun at all.

At Funsport our commitment is to:

- Minimise plastic use wherever possible and promote responsible use and disposal practices for items sold.
- Encourage our customers to join us in our efforts through offering sustainable alternatives and opportunities to minimise their own impact.
- Develop sustainable procurement practices and engage with our suppliers to encourage more sustainable packaging and delivery methods.
- Develop our internal reuse and recycling procedures.
- Promote and engage in initiatives that protect the local environment.
- Work in partnership with likeminded businesses and organisations to widen our impact.

PROTECT OUR FUNSPORT PLAYGROUND
